

EMU POINT SPORTING CLUB (Inc.)

NEWSLETTER – MARCH 2021

Friday night continues to be a popular event with new chefs Nicolas and Sabrina serving 80 or more quality meals. The raffle has been well supported and we are grateful to the generosity of sponsors. It would be pleasing to see more club members enjoying the night as visitors to Albany are certainly appreciating our hospitality. (Snacks are also available on a Thursday evening)

Both bowls and tennis continue to enjoy successful seasons which have included the Emu Point Bowls Classic and the Albany Open Tennis Tournament. Pennant Bowling teams are all represented in the pennant finals playoffs. Both clubs have completed improvements to their facilities.

The Future Development Committee continues to meet, looking at funding for a feasibility study for possible upgrades. This may require a change to a more community based name for the Sporting Club.

Maintenance is a continuing process. The office window is to be replaced and the front clubhouse windows repaired and painted. Volunteers are required to help with the painting of the inside of the building. Please contact Phil Wegner, the coordinator, if you are willing to assist.

The Board has accepted a quote from Albany Solar to supply and install a 13.2kw grid connect system which will be installed over the next two months, resulting in considerable annual savings.

Harvest Road would like to hold an information night about their development at Emu Point and will include a tasting of their oysters. A date is yet to be finalized.

Once again I would like to thank all members who willingly volunteer to assist with the running and maintenance of our club.

See you at the club.

Angus Woithe President
