Many thanks to Brendan Rogers who has not only organized Playground Equipment but transported it from Northampton and repaired and painted it so it is like new. A photo of the equipment has been displayed in the Clubhouse and on the tennis noticeboard. Its positioning will be discussed at the forthcoming Board meeting.

The Future Development Committee has undertaken to organize a Structural Engineering Report by James Leiper on the present Clubhouse to make sure the building is in sound condition. The report was positive and the building is in good condition. Also enlarged Concept Plans by Lyn Farrow are complete and available for your comment.

A new look entrance at both carparks has been approved and a quote is being obtained for the installation of limestone blocks. Todd Jefferis has installed the new solar light bollards and LED lights in the top carpark certainly offer better vision and security at night.

Robin Philpott has kindly volunteered her secretarial services until January when it will change to a part time paid position. Thankyou Robin. Thankyou to Kevin Shanhun who has assisted me in this role.

At the December Board meeting, planning for next year will be discussed. Minutes of Board meetings are then emailed to Club Secretaries for further distribution to members.

The Clubhouse and the surrounding grounds and gardens are looking great. Thankyou again to the wonderful efforts of our members.

Wishing all members a Happy Christmas and a prosperous and healthy New Year.
